 YounesAO

 Portfolio

## Education

National School of Applied Sciences, El Jadida (ENSAJ) – Engineering Degree  
Software Engineering and Emerging Technologies (2ITE)

2023 – 2026

Higher School of Technology, Dakhla (ESTD) – Associate Degree  
(DUT), Computer Engineering – *With High Honors*

2021 – 2023

## Professional Experience

Software Engineer Intern

July 2025 – September 2025

at DeepLeaf

- Migrated API platform from monolithic to microservices, developing a usage log service with **REST/gRPC** endpoints using **FastAPI**, **TimescaleDB**, and **PostGIS**.
- Implemented multi-dimensional filtering, cursor-based pagination, and containerized the environment with **Docker**.

Software Engineer Intern

July 2024 – August 2024

at Assab Vision (France)

- Developed ERP/CRM modules using **Next.js**, **Tailwind CSS**, and **Sanity CMS** with VPS deployment and **CI/CD** pipelines via **GitHub Actions**.

Full-Stack Developer Intern

April 2023 – June 2023

at ADMMDI (Morocco)

- Built a car rental platform using **Laravel** and **MySQL** with RESTful APIs.

Full-Stack Developer Intern

June 2022 – July 2022

at Ouahda Solutions (Morocco)

- Created a POS system with **PHP/MySQL** backend, integrated **Chart.js** for analytics dashboards, and developed inventory management features.

## Key Projects

EduGame Platform

- Architected a gamified learning environment for students using a **Spring Boot** backend and a native **Android** mobile application.

Agricultural BI Analysis

- Developed ETL pipelines using **Talend** and **Pentaho** to process and analyze the impact of climate emissions on agricultural crops, with data stored in an **Oracle DB**.

Vocal Pathology Detection System

- Engineered a mobile application using **React Native** with an **Expo** build process and a **Flask** backend to diagnose vocal disorders through ML-based audio signal processing.

Real-Time Exam Surveillance System

- Architected an anti-cheating web platform featuring a **Java Spring Boot** backend and a **Next.js** frontend for real-time monitoring and proctoring.

## Technical Skills

Architecture & Backend

- Microservices Architecture
- Python (FastAPI), Java (Spring)
- PHP (Laravel)
- API Design (REST, gRPC)

Data Engineering & BI

- ETL (Talend, Pentaho)
- TimescaleDB, PostGIS
- SQL & NoSQL (PostgreSQL, Oracle, MongoDB)
- Hadoop, SQLAlchemy

Frontend, Cloud & DevOps

- JavaScript/TS, React, Next.js
- Docker, CI/CD, Git
- AWS (Core Services)
- Linux, VPS

## Languages

- Arabic, Tamazight — Native
- French — Fluent
- English — Professional Proficiency
